WHAT YOU WILL BE DOING:

There are a wide variety of software engineering opportunities available such as application, kernel, graphics, AI development. As an AMD Software Engineer, you can expect to –

- Collaborate with teams across the stack from user space, kernel, firmware and hardware
- Work with globally recognized partner companies to build solutions to real end-user issues
- Participate in code and design reviews to ensure we build efficient and quality code
- Create differentiating software features, examples include: AMD Fluid Motion Frames, AMD FidelityFX Super Resolution, FreeSync, and more
- Take high-performance & efficient computing to a new level with next-gen Ryzen/Radeon Graphics chips

WHO WE ARE LOOKING FOR:

- You are currently enrolled in a Canada based University in a Bachelor's degree program majoring in Computer Engineering, Software Engineering, Software Development, Computer Science or related field.
- AMD has multiple opportunities that requires different software skills. If you have **ANY** of the following skills, we encourage you to apply –
 - C/C++ programming and Object-Oriented Design
 - Frameworks like Qt, Javascript
 - Operating systems concepts (including memory management, multithreading, assembly, x86).
 - Computer graphics pipelines (Direct3D, OpenGL, OpenCL)
 - Computer architecture and/or firmware development
 - Version control tools such as Git/Github, Perforce
 - Additional Scripting Languages: Python, Windows PowerShell, Linux shell script, Perl, Java, UML
 - PC assembly and gaming ecosystem knowledge

Note: By submitting your application, you are indicating your interest in AMD intern positions. We are recruiting for multiple positions, and if your experience aligns with any of our intern opportunities, a recruiter will contact you.

Benefits offered are described: [AMD benefits at a glance.](#)

AMD does not accept unsolicited resumes from headhunters, recruitment agencies, or fee-based recruitment services. AMD and its subsidiaries are equal opportunity, inclusive employers and will consider all applicants without regard to age, ancestry, color, marital status, medical condition, mental or physical disability, national origin, race, religion, political and/or third-party affiliation, sex, pregnancy, sexual orientation, gender identity, military or veteran status, or any other characteristic protected by law. We encourage applications from all qualified candidates and will accommodate applicants' needs under the respective laws throughout all stages of the recruitment and selection process.
